D. Ray Davis
President
Polymer Concepts, Inc.
4040 Nine McFarland Drive
Suite 1000
Alpharetta, GA 30004

Dear Mr. Davis:

The U.S. Environmental Protection Agency applauds Polymer Concepts, Inc. ("Polymer Concepts") for your leadership in developing an environmentally carpet cleaner. EPA's Design for the Environment ("DfE") program seeks to promote the use of products with improved environmental and human health characteristics. The product in our partnership – EncapSoil Guard – fully achieves that objective in the I/I cleaning sector.

The key purpose of the DfE– Polymer Concepts partnership is to recognize and encourage the environmentally preferable chemistry of the partnership product. DfE is very enthusiastic about your successful formulation of this product and about our partnership. By eliminating hazardous solvents, environmentally persistent surfactants, and other harmful ingredients, you have demonstrated active environmental stewardship and dedication to continuous improvement.

Consumers who use your recognized product will be participants in this important national effort to protect the environment and safeguard human health. We commend Polymer Concepts for your commitment to improving the environmental profile and performance of your product—and for leading change in the cleaning industry. DfE looks forward to building this partnership and wishes you much success with the partnership product.

Sincerely,

A handwritten signature in green ink that reads "Clive Davies".

Clive Davies, Chief
Design for the Environment
